

# EBIA Industrial aluminium grilles 40 mm pitch

## Description

Aluminium air jets with industrial pitch for high air flow rates and low pressure drops.

## Characteristics

Material: aluminium.

Finish: natural anodised.

Installation: fastening by means of front screws. For greater flexibility of installation, the air jets are supplied without screw holes.

Maximum dimensions: 1600 mm x 1600 mm.

## Use

Recommended for large rooms where high air flow rates and long air throw are required, for example industrial buildings, churches and hypermarkets.

## Models

EBIA/VO with 2 rows of vertical and horizontal blades;  
EBIA/OV with 2 rows of horizontal and vertical blades;  
EBIA/V with 1 row of vertical blades;  
EBIA/O with 1 row of horizontal blades.

Example: the VO version has the first vertical row near the front and the second horizontal row inside the air jet.

## Accessories

CTP Counter-frame to set into wall.

## On request

Painting in different RAL colours.

## Operating data

Vk: effective speed (m/s)

m<sup>3</sup>/h: flow rate

Pa: pressure drops in Pascal

L1 (m): air throw in metres calculated on ceiling installation, terminal velocity 0.25 m/s

dB(A): noise level

All dimensions are expressed in mm
